

ACKNOWLEDGMENTS

This book aims to provide an overview of some of the basic principles of judicial review, including a description of important case law that has developed since the enactment in 1996 of the Illegal Immigration Reform and Immigrant Responsibility Act. It is, however, impossible to achieve this aim without the help of others. The litigation of immigration cases after IIRIRA has become fraught with so many different potential issues and so many inconsistencies among the circuit courts that no one attorney can gain a detailed grasp of all the relevant case law.

Thus, I have been extremely fortunate to have received help from some of the best immigration lawyers in the country who are involved in litigating cases against the government. For their many helpful contributions and suggestions, I would like to thank Maria Baldini, Mark Barr, Jesse Bless, Steven Brown, Jeffrey Chase, Rex Chen, Lee Gelernt, Brian Green, Aaron Korthuis, Kristin Macleod-Ball, Sarah Paoletti, Scott Pollock, Mark Prada, Edward Ramos, Trina Realmuto, Chris Strawn, Michael Tan, Devin Theriot-Orr, Stacy Tolchin, Karen Tumlin, and Ben Winograd. And I would like especially to acknowledge the attorneys at Gibbs Houston Pauw who have reviewed and commented on my work: Adam Boyd, Robert Gibbs, and Fiona McKinnon. Their support and assistance are deeply appreciated.
