2024 AILA Fall Conference & Webcast Removal and Family Track

Immigration practitioners are constantly in search of any advantage they can find to better assist their clients. To help in these efforts, the expert panelists on the AILA Fall Conference and Webcast: Removal and Family Track, will provide the latest updates on current adjudication trends and present innovative solutions to problems commonly faced by practitioners. The day will begin with a discussion featuring AILA's president, Kelli Stump, as well as representatives of EOIR and OPLA, as they discuss current issues in removal proceedings. Topics such as complex naturalization, I-601 waivers, and the latest events in crimmigration will be analyzed. Our program also features a session on best practices for preparing and presenting your client's story to an immigration judge. Attending this program will give removal and family practitioners a decided edge in effectively advocating for their clients.

Note: The Removal and Family Track will be one of three tracks offered at the AILA Fall Conference and Webcast. A separate PERM track, as well as the AILA Technology and Innovation Summit track, will be held simultaneously. In-person registrants will pre-select a track to attend on site, but will receive the recordings for all three tracks. Webcast attendees can move between tracks for live sessions and also will receive the recordings.
