Advanced Search

Search by single words, multiple words, or exact phrases. By default, search results are displayed by hierarchy (based upon their location in the left-hand Table of Contents); you can also sort and display search results based on relevancy. In addition, you can limit your search to a subset of AILALink by selecting specific sections of content, using the Filter Search menu to the left. If you're searching for INA or CFR provisions, use the INA/CFR search tab. If you're looking for a district court or state court case, or decisions of the AAO, OCAHO, or DOL ARB/ALJ, use [Fastcase Premium](#). Additional Supreme Court, circuit court, and BALCA decisions are also available through Fastcase Premium.
